

Connect with students

Kista Science City invites companies to a focused matchmaking event where companies can present thesis projects, summer jobs, trainee programs, internships and entry-level job opportunities directly to students with relevant technical backgrounds.

Location: Kista

Date: September 10th, 2026

Time: 13:00–16:00

Why participate?

- Meet pre-qualified engineering and science students
- Promote thesis topics, summer jobs and trainee roles
- Build early relationships with future engineers
- Publicity and showcasing in communication & marketing

Who will attend?

We expect students from:

- Electrical Engineering
- Applied Physics
- Materials Science
- Nanotechnology & Microelectronics
- Photonics
- Related technical Master's programs

Students will primarily be in their later years of study and actively seeking thesis placements, internships and early-career opportunities.

How

- Register your interest by email to mikaela.farnqvist@kistasciencecity.com
- Get access to match making platform. Then update your company profile with job openings and preferences
- Participate in digital kick off, only for companies, August 19th.
- Screen and select 6–8 students for 1:1 meeting before September 3rd.
- Participate in match making day, September 10th
- Pitch your company on stage

About Kista Science City

Kista Science City is a non-profit organisation acting as a catalyst in the regional innovation system. Read more about us at kistasciencecity.com.

The activity is organized as a part Semiconductor arena, an EU funded initiative and without cost for participants. Prior to the event, a signed declaration form must be submitted to confirm acceptance of the state aid associated with participation.
